Best Saddle Stallion in Kentucky.

Kentucky Squirrel, No. 427.

THIS BEAUTIFUL STALLION WILL MAKE THE PRESENT SEASON AT OUR stable in Columbia and will serve mares for the low sum of \$10.00 to insure a living colt. Money due when colt is foaled or mare traded or removed.

Kentucky Squirrel was foaled in 1887; is a brown, 16 hands and is richly and fashionably bred. There is not a saddle stallion living that can out act him. As a 3-year-old he was shown all through Kentucky and was never defeated in his ring, and at the close of the season he was sold to Mr. J. J. Bales, of Richmond, Ky., for \$1,900. He is a perfect model, a horse of wonderful endurance and a very superior actor. He has proven himself a number one breeder. Kentucky Squirrel's colts have plenty of size, style and finish. They are especially good actors and command the highest prices when placed on the market. There has been more high price horses sold from the Squirrel family than from any family of saddle horses that ever existed in the United States. If you want to raise a horse for profit and one that you can sell for the highest market price breed to Kentucky Squirrel.

MONARCH.

Our Jack, Monarch, will make the present season at \$6.00 to insure a living colt, money due when mare is traded or parted with. Monarch is a black jack, 6 years old, 15 hands high, very heavy, fine bone and foot, long ears and long body head. He has fine length, great style and is richly bred, being from the best strains ever produced in Kentucky and is himself one of the finest individuals we have ever seen. He has proven himself a great breeder. See him and his colts and be convinced of above description. We have an experienced man to look after mares being bred. Mares fed gratis or pastured at reasonable rates, but will in no way be responsible for accidents or escapes.

SENATOR CLARK'S WEALTH

There are many multimillions in the United States, but according to many ways of figuring, United States Senator W. A. Clark, of Montana, is not only the richest man in America but the richest man in the world. Mr. Geo. C. Carson, mining engineer and metallurgist, of California, at the Billman.

"He has in one bill gold, silver, copper and lead that will round up value five billions of dollars. The are big figures, but my estimate true, nevertheless.

"Senator Clark is not generally regarded as the wealthiest man in the United States simply because he has not yet published an exhibit of his resources. But wait two or three years and the world will be worth more than the Rockefeller, the Vanderbilts and a dozen more multimillions combined."

Birmingham Age-Herald.

CONGRESS.

After a fight in the House the Cuban reciprocity bill was passed by that body by a vote of 247 to 152. An amendment was adopted removing the differential tariff on refined sugar.

The Chinese Exclusion Bill was defeated in the Senate. In its place was adopted the substitute prepared by Mr. Platt, of Connecticut, which excludes laws and also makes them apply to the insular possessions of the United States.

It is said that a petition 10,000 feet long and containing 3,000,000 signatures will be presented to Congress by the distillers and liquor dealers of the United States, who demand a reduction in the internal revenue tax on distilled spirits from \$1.10 per proof gallon to 70¢ per proof gallon.

Representative Richardson, minority leader in the House, declared in an interview that the Democratic party was never before so thoroughly compact and harmonious as at present, and predicted that it would carry the next House. He defined the paramount issue as military and imperial.

MORE TRUTH THAN POETRY.

A Kansas paper, whose editor is doubtless an old bachelor or else a fellow whose wife henpecks him, gets off the following which at least has the merit of truthfulness. In mentioning the marriage of a local couple he says:

"The young couple took the morning train for St. Louis, where they spent more money in three days than Willie can earn in three months. The groom gets a salary of \$27 a month, which is about the allowance Anna has been used to for pin money. We wish for Willie's sake that the old saying that it takes no more to support two than one was a lie."

What a loathsome person a gossip is; and how detestable the occupation. Gossip has made many a hell on earth. Gossip has parted many husbands and wives. Gossip has blackened and ruined the character of many a girl. Gossip has parted lovers who would have been happy had it not been for it. One little mistle or one indiscreet action will cause gossip to arise with new strength and start on her mission. Her, did we say? We ought not to for we have male gossips and as a rule they are ten times as vicious as a female. A good, healthy gossip is as mean and dangerous as the most vicious thing on earth. A dog that will bring a boy to him will bite; one that will bring a girl to him will bite.

Written for the News.

IN MEMORY OF MY KINDRED.

To that happy home, the land of de-light,
Now basking in the sunshine of a Sav-or's love—

Beckoning us on to that home above,
Husband and daughter, mother, father, brother,
All have gone to that mystic shore;
But surely in heaven we'll meet and know them,
And know not sorrow any more.

Then why grieve for those who leave us
In this world of trouble here,
Christ will claim his own and bless them
In that home "Just over there?"
So away with grief, for the Christian's hope
Shines bright as the morning star,
For the "Good Shepherd" has opened the way.

If we'll follow him He will guide us
Up there,
Then with our blessed Savior all will be light,
So we'll trust him to hold our hand—
He will lead us on to mansions bright,
To that home in the better land. — E.

Two farmers, John Davis and Wm. Combs, living near Rylab's Ferry, Tenn., were found dead, lying near each other, one with two bullets in his breast and the other with his throat cut from ear to ear. It is supposed they killed each other while drinking, as no empty jug was found near.

ANNOUNCEMENTS.

For State Treasurer.

We are authorized to announce H. H. HEN-
NING, Wayne County, a candidate for the
office of State Treasurer, subject to the action
of the Democratic party.

Teddy has notified Gen. Fan-
ston that he is doing entirely too
much talking.

A fire in Louisville Saturday
morning burned \$50,000 worth of
property and thirty mules perished
in Hudson Bros' stable.

Dr. W. G. Hunter, United States
Minister to Guatemala, arrived in
Louisville last week. He brands
the sensational story published
about his son's conduct in Guate-
mala as a falsehood from begin-
ning to end.

Those who want to hear some
warm speaking should be in Col-
umbia the third Monday in May,
Judge Boering and Hon. Ed. Park-
er, Republican candidates for
Congress, will be here, also Hon.
D. G. Colson.

Joplin, Mo., was visited by a
very destructive storm last
Friday. At least two persons
were killed, six fatally injured, a
score or more seriously hurt and
\$300,000 worth of property de-
stroyed.

The Confederate reunion at
Dallas, Texas, was the largest in
the history of the organization.
It was estimated that 250,000 vis-
itors were in the city. All the old
officers were re-elected, and New
Orleans was selected for the next
meeting.

Wesley Whitaker, of Clay
county, a witness in the Jim How-
ard case, who ran away from the
trial, was before Judge Cantrell
Saturday for contempt. He stated
that the reason that he left
Frankfort was told that if he
testified against Howard he would
be killed.

Republican conventions, State
and national, have been resolu-
ing against trusts for the past ten
years, but the robbing contin-
ues. If this party really want-
ed to stamp out the trusts, there
is nothing to hinder. It has ab-
solute control of every branch of
government.

United States Senator elect Jas.
B. McCreary returned from Wash-
ington last week. To a Courier-
Journal reporter Mr. McCreary
stated that the Democratic party
throughout the country was in
fine shape and that the next House
was almost sure to be Democratic.

Mr. Hanna refused to take
charge of the Republican Congress-
ional campaign, claiming that he
was over-worked. All of Mr.
McKinley's close political work-
ers are down with the same com-
plaint, hence there is every pros-
pect that the Democrats will con-
trol the next House.

The jury in the Berry Howard
case returned a verdict of acquit-
tal at noon last Friday. On the
first ballot two jurors voted for
conviction, but after further de-
liberation all voted for acquittal.
Howard met the jurors friend-
ly and said to each of them: "I
felt that you would do what
was right." Howard left immedi-
ately for Pineville.

The Taylor County Enquirer is
advocating water-works, electric
lights and an ice factory for
Campbellville. All these are
good, but why not hook Camp-
bellville on to Columbia by an
electric road and receive a blow-
ing that would change present
conditions, and all these other
things would be added in due
course of time.

Regardless of the abuse of Judge
Cantrell, regardless of the efforts
of that part of the press that has
enlisted in the wholesale abuse of
Judge, jury and attorneys, that
has used its efforts to create and
keep alive the grossest partisan
prejudice and animosity, as they
thought, political capital for their
party, the trials of the Gobel
murderers have proceeded. Up to
this date five have been tried,
three convicted and two acquitted
and the papers that have been
denouncing the prosecution and
seeking to create a sentiment in
favor of the parties accused, have
not had the courage to come out
and credit the Commonwealth for an
honest and fair trial of the two
acquitted; they have failed to
even credit the jury that acquitted
Ripley, and after denouncing the
jury that sat in the Berry Howard
case, they are not likely to retract
their denunciations of it. They
were raising a few days ago about
the jury being composed of Demo-
crats and the impression was
sought to be made that conviction
was inevitable by reason of this
fact. It failed to materialize as
they predicted and ought to
strengthen public confidence in
the actions of the prosecution of
the parties indicted for the mur-
der. We have never believed that
any one desired the conviction of
an innocent party. All that is
demanded by the Commonwealth
and the relatives of the murdered
man is the conviction of the guilty.
That is all any one demands and
these demands must be met or an-
archy and murder prevail.

The leaders of the Republican
party throughout the country are
suffering much uneasiness at this
time. Things have not been go-
ing to suit them at the seat of
Government, and they are fearful
that the Democrats will elect a
majority of the next House of
Representatives. A prominent
Washington Republican says:
"Not in 10 years has there been a
time when the situation in National
politics was so threatening for
the republican party as at present.
We are just preparing to go before
the country for the election of a
new House of Representatives.
Apparently it will be 1890 over-
again. How are we preparing for
it? We seem to have no leader.
The Republicans in the House are
a leaderless mob. A minority of
the republicans there combine
with the democrats and that is an
end of party responsibility and
party discipline. Exactly the same
situation prevails in the Senate.
There is no leader, and a few
Senators who were elected as
republicans, stand ready to form
an alliance with the democ-
rats; in fact, the alliance
has not been formed already to
overthrow the policy of the admin-
istration and bid defiance to party
authority. How is it to end?
Unless the big men of the party
come to their senses, it will end
in disaster after disaster and loss
of the presidency in 1904."

Internal Revenue Commissioner
Yerkes holds that farmers and
growers are privileged to sell leaf
tobacco of their own growth and
raising (and that received from
tenants as rent), and in its natu-
ral conditions, without restriction.
The decision provides, however,
that the farmer must sell his to-
bacco in the condition in which it
was cured on the farm and cannot
stem, strip, plait or roll, sweeten
or otherwise manipulate it for sale
to consumers. No person can be
lawfully employed by a farmer as
his agent to sell and deliver his
tobacco to consumers.

FONTHILL.

The health of the community is very
good.

Some of our farmers have planted
corn.

Most all the pupils that have been
away attending school will come home
preparatory for the examination.

LITTLE HENRY REED DEAD.

Last Friday night about the hour of 9 o'clock Little Henry Reed, who was in his fifth year, a son of Mr. and Mrs. W. Reed, fell asleep in the arms of his mother and never awoke. He was a very healthy child and was very fond of his mother. He was a very good child and was very fond of his mother. He was a very good child and was very fond of his mother.

Religious services were held at the Christian church Saturday afternoon, conducted by Rev. Z. T. Williams and Rev. M. E. W. Granger and at the close, the body of this favorite and much loved child was laid to rest in the city cemetery. To the bereaved family this community extends its deepest sympathy.

Mr. and Mrs. E. W. Reed desire to return their heartfelt thanks to their Little Henry's many friends, old and young, who were so tender and kind during their darling boy's illness. His every wish was gratified, and the kindness of those who so patiently watched by his bedside will never be forgotten.

Every commendable effort to better the condition of our town meets our hearty approval and should be openly endorsed by every citizen within the corporate limits of this city. Just in the council, the board of directors, are doing some excellent work on the streets and if they carry out their intentions as outlined by us, Columbia will soon have the best streets of any town in the State whose population does not reach 2,000. At present they are grading the street north of the courthouse and putting in stone curbs and as soon as this work is done a heavy coat of gravel will be placed thereon. This particular part of the work is the most important of the R. F. Paul, who is not in the habit of doing both jobs, and we predict that the most substantial work will be done. They will have the streets and sidewalks in the city in a few days. This action will give straight lines and will add both beauty and convenience to the public passageway. Again, there is a law that imposes a fine for dumping rubbish of any kind into the streets, and we hope that the R. F. Paul will see to it that this law is enforced and in our judgment it should be. Our present council is composed of good business men, men who feel an interest in the betterment of the condition of this town and it is certain that they are making an honest, persistent effort to do so. They desire the support of the entire people in this respect and doubtless will receive it. They are moving and we say, Amen.

Dr. A. C. Foster, the Osteopathic Physician, returned to this city last week with the avowed purpose of making this town his home. Dr. Foster spent a few months here last year in the practice of his profession but left last fall for other parts. After viewing other sections he has fully made up his mind to locate here and his services can be secured at any time by calling at the Marcom Hotel. We are glad to have Dr. Foster in our town, for two reasons, first, he is a cultured gentleman, just such as we desire, and second, the benefit to be derived from his professional services is not a trifle or small consideration. Dr. Foster's stay here last year was pleasant and profitable and his practice established the fact that he was well up in his profession and that his profession, backed by scientific principles, is an avenue from disease to health in many cases where the power of medicine could not penetrate. His many friends here extend a hearty welcome.

Mr. John McFarrell, who is a prosperous merchant and farmer of Russell county, was in Columbia last Friday night. He stated that the recent freshets in Cumberland river had greatly enhanced the value of lands in the bottoms, the sediment being from two to four inches deep, making the lands very rich. He also stated that the farmers of Russell county were making the efforts of their lives—immense corn crops being put. The pear industry is also lively upon the Cumberland, and in a few weeks hundreds of people will be searching for these precious gems.

Col. L. T. Nest, who has been on duty in Marion county, returned home last Monday. He was in Louisville Saturday and met Hon. D. C. Colburn, Republican candidate for Congress in this district. He informed Mr. Nest that he would be in Columbia the third Monday in May, and would drive time with Mr. Nest. Driving son Parker.

SAW LEWIS.

The weather has been very populous for farming during the past ten days, and our farmers have made good use of the time. Large crops are being put out, and it is hoped that this will be a bountiful year. Last winter was extremely cold, providence scarce, and many of our farmers were compelled to dispose of their stock at a sacrifice, there being but little feed in the country.

Miss Minnie Kemp, this city, who was present at the electionary contest at Lebanon, reports a splendid literary treat. There were a number of contestants for prizes, Misses Mary Curry and Mary Saline, Harrodsburg, winning first and second prizes. Miss Kemp had the honor of being one of the judges, and states that there is no doubt in her mind that the prize were meritoriously won. Nine young ladies rendered selections.

Mr. Arvel Taylor, having disposed of his stock of goods at Clear Spring, has again accepted a position with West & Williams, Montpelier. He is an excellent salesman, polite and accommodating, and his friends generally are glad that he is back in his former position. Honesty and sobriety is what keeps young men in positions of trust, hence Arvel's strictly moral habits will invariably find him employment.

Three young men named Walls, Curry and Hendy acted very badly at Mt. Gilgus Sunday school last Sunday night. They were all more or less under the influence of liquor, Walls being very drunk. Walls drew his pistol and threatened to shoot at the other two. They were all more or less under the influence of liquor, Walls being very drunk. Walls drew his pistol and threatened to shoot at the other two. They were all more or less under the influence of liquor, Walls being very drunk. Walls drew his pistol and threatened to shoot at the other two.

A town can not grow unless there are houses put up and dwellings can not be erected unless lots can be secured upon which to place them. There are a number of nice building lots about town. The owners have such prices placed upon them that no one can afford to purchase. There are some lots upon which buildings will be erected this spring and summer, lying in the suburbs of the city, but the most desirable sites can not be reached, the owners either holding them too high or refuse to sell. The town would grow rapidly if those who want to locate here could secure homes.

Mr. W. I. Meader, a native of Columbia, but who has resided in Campbellville for a number of years, has announced his candidacy for the office of Circuit Court Clerk of Taylor county. Mr. Meader is a Democrat of the old school and he enters the contest, not many cases where the power of medicine could not penetrate. His many friends here extend a hearty welcome.

THREE MONTHS FOR TEN CENTS.

No Country Newspaper can earn a living on less than one dollar per year, but in order to acquaint the people of Southern Kentucky with The News, who have not been subscribers to it, the above proposition is made.

The News is a local paper in touch with the advancement in this part of the State. It contains more local and State news and less foreign advertisements than any paper in this section of the country. The regular subscription is \$1.00 per year. Try it three months and if you like it then let your subscription come for one year. Three months for only 10 cents. This proposition will be carried out to the letter and when your three months expires your name will be marked from our books unless otherwise ordered. Now is your opportunity. Three months subscription on this proposition will be taken as late as June 15th and none later. If you accept this proposition send in your subscription. Stamps received just as much as cash. Tell your neighbors about this. Ask them to try the paper three months.

Robert Fraser, son of Mrs. Flora Fraser, who was born in Columbia, and resided here until he was ten years old, met with a serious accident last week. He is now twenty years of age and for some time he has been employed by a Cotton Seed Oil Company, located at Shreveport, La. While in discharge of duty he stepped from a moving passenger train, and while so he was badly crushed that amputation below the knee was necessary. He stated the operation well and the latest information is that he is improving. He is a brother of Mrs. W. B. Patterson, Jamestown, and Mrs. John F. Cabell, Camp Knox.

Now is the time to clean your back yard, closets, cellars and other places that gather filth. The public health demands it. Then use it should appeal to your pride, health and personal. It knows that your own premises are clean whether your neighbors are or not. Another reason why you should take such sanitary precautions is that the town ordinances require it of you. Let the words "Clean Up" be your motto.

Some time ago Ed. Z. T. Williams delivered a lecture at the Christian church on his travels in the Orient, but there were many interesting points he failed to reach. Last Sunday afternoon he again took up the subject and was very entertaining from Damascus to Athens. Ed. Williams has a map showing the location of all the important cities in that country, and his talks are of incalculable benefit to Bible students.

Columbia Chapter No. 7, R. A. M., is rapidly increasing its membership. As every meeting there is more or less work, and at the meeting in May the Royal Arch degree will be conferred upon three or more. The Blue Lodge is also in a prosperous condition. The preceding officers requests us to state that all members of sister lodges and Chapters, when in this city, are requested to attend our meetings.

The fishing season is here, and people who live on Green river should keep a look-out for dynamite. It should be remembered that last year parties who live in a neighboring county visited the river near Neatsville, and killed and hauled off a wagonload of fish in one night. There is a heavy line for dynamite.

The world might be indifferent to us, and when unsuccessful in our business, and when supposed friends have turned from us, and when our friends have racked the body, there was a place where we could turn for comfort and consolation. The head was never so heavy but seemed lighter after a few consoling words from another. Her room was always cheerful and bright and we were sure that we would welcome any time, day or night, and there always met a friendly greeting. It was a place where we might be encouraged to go forth to fight life's battles with renewed energies. It made me feel, and know when from such a place is taken away. Now whatever may be our ups and downs in this life, we must turn us no more and share the joys or sorrows as they may be. Now I feel at night we return from our life's

town what do we meet to cheer us on?
 We look around for mother, but alas,
 mother's gone and in her stead a vac-
 uum which can never be filled, an empty
 chair, a vacant place at the table,
 here one thing, there another, which
 her loving hands have prepared for our
 future comfort and happiness. But so
 sad our darling mother's gone! There
 are still those kind friends who are
 tender, loving and true, as can be, yet
 our home can never be the same, for
 home is home only where mother is.
 He who doeth all things well knows
 best, and has taken her from us so we
 may learn that nothing on earth can
 stay.

Even the rose it must die with the years, so she the sweetest of all has been borne to her home beyond the skies and I pray that we may be prepared as she was when the summons comes for us to leave this world of sickness, sorrow, tribulation and care, and wing our way to the happy home beyond the skies where we shall meet her, for we shall know each other there.

After a brief service held at the late residence by Eld. J. Q. Montgomery, her remains were taken to Hustonville and all that was mortal of our good old mother was laid to rest until the resurrection morn.

No more shall mother's face from its
old accustomed place
Smile my fears and tears all away
For it lies beneath the sod, death the
cold and clammy clod,
And its absence leaves me lonely all

You have become leave the money of
 the days.
 Yes, her body sleeps on the hillside,
 With a bed made of clay,
 How cold it seemed to lay mother
 away,
 Kind friends may come round,
 But none do I see,
 So full as the face of my mother to me,
 Still her voice, so sweet and clear, falls
 like music on our ears
 And her footsteps ring a forever
 through the halls,
 A presence fills the place nothing ever
 can efface,
 And the sunshine of her love was ever
 Us all.
 But now I need no clear what our loss
 was Mother dear.

When in silence you were laid beneath
the ground;
I lost a precious mother, dearer far
than any other
And a truer friend than her we will
never find.
Written by a broken hearted son.
J. WAT BROWN.

THE CRUCIFIXION OF CUBA.
It is heralded from Washington that the Cuban reciprocity bill as it passed the house is to be "nailed to the cross" in the senate. As it now reads it cuts out the special tariff by which the

out the special graft by which the American sugar trust charges the masses of the country just two prices for the sugar used in daily consumption.

To enact the bill as the house passed it will mean the death of the sugar trust and the opening of our ports to the refined sugar of the world at bed-rock figures. Nearly every cent thus saved would remain in the pockets of the people and amount to about 75 cents per capita per annum, or a saving of \$3.75 a year to every family of five persons in the nation. To that extent financially every voter in America is interested in the bill becoming law in its present shape.

But we are forewarned that the sugar trust, which is the largest contributor in the country to the campaign funds of the republican national committee and to the campaign expenses of individual republican senators and congressman, is safe in the hands of the senate. There do not appear to be enough democrats and independent republicans in that body to save the bill from the guardians of the trust, and it is marked for defeat.

This means, also, the commercial crucifixion of Cuba. She languishes in distress, the bulk of her sugar crop warehoused, awaiting the salvation of her chief industry and the credit based upon it by the enactment of a reduced tariff rate upon Cuban sugar. Unless she gets that rate in larger measure than 30 per cent and gets it speedily her staple industries will become paralyzed and bankrupt, her masses be left laborless and idle, her political prospects be shattered and her condition made worse than when the Spaniards encouraged her enterprises in order to loot them.

The democrats in the senate should not mistake their duty or lose their opportunity in this case. They can stand with solid front for the relief of the American bomber and the Cuban producer at one and the same time. That stand is the right and popular one which the people will overwhelmingly endorse at the polls.—Atlantic Constitution."

His estimate would be accepted as correct without a question. Then when a man dies only so much as he has paid taxes on should go to the heirs and any amount that has escaped taxation to the State. His plan is ingenious and might prove more equitable than the present system, taxing personal property three months of its value, which now falls on real estate. How it would act as a reality in operation is a problem for future working.—Ex.

In Kansas the Supreme Court has decided that the counties must reimburse the joint keepers whose places of business were destroyed in the Carr Nation crusades. The counties ought to have protected the property, even if the property was used for illegal purposes. Because a man is violated a law in a house, no mob has a right to destroy that house. The authorities owe it protection, and if they fail to protect, the court must award the owners of the property damage.
